

Vendor Scorecard

How we score each returned questionnaire. The rows are the questionnaire's own questions, in the order they appear on it. Seven marks a vendor, about two minutes each.

WHAT WE SCORE		
A1	Home Care Home Base integration	25
Section B	Capacity	10
Section B	Scheduling	10
Section B	Engagement	10
C1–C5, C7	Sophistication	20
D1–D3	Clinician fit	10
E1–E4	Partnership	15
Total		100

HOW WE MARK IT

Home Care Home Base A1	Scope Section B	Clinician fit D1–D3
25 Live, reads and writes, several customers	3 Covers essentially all of it	4 Clinician keeps real control, adoption shown with data
20 Live, one customer or one-way	2 Covers most of it	3 Clinician keeps real control, adoption claimed
12 Live via a partner, flat file or screen scraping	1 Covers some of it	2 System decides, clinician can override
6 In development, with a date	0 Little or none	1 System decides, clinician cannot override
2 Roadmap, no date		0 Not answered
0 None, and no path		
	Sophistication c1–c5, C7	Partnership E1–E4
	4 Runs it — decides across the whole picture	4 Specific terms and a change-management story
	3 Recommends it — proposes; a person confirms	3 One of the two
	2 Checks it — applies rules, flags problems	2 Willing, no structure offered
	1 Shows it — surfaces the information only	1 Standard commercial relationship
	0 Not addressed	0 Not answered

FLAGS, BANDS

A2	Customers, scale and references	80–100	Advance
A3	Measured impact	65–79	Consider
C6	What happens when their product is down	50–64	Hold
		Under 50	Decline
These three raise a flag rather than moving the score. A vendor can score well and still carry one. We resolve it before advancing rather than trading it against points.			
Under 12 on Home Care Home Base shows as Conditional whatever the total.
