C · WHICH DAY – THE EPISODE

THE EPISODE STAYS IN HCHB

Frequency plotted via HCHB workflow

Tasks read from HCHB into CareStitch

BETA

Spread the week by eye on the grid

ROADMAP

Episode guardrails and LUPA pacing

BETA

Completion syncs back as a check mark

· Scheduler plots it today

· Unchanged by CareStitch

· Read-only screen beta

· Never run in production

· RFP: FHIR / HL7 preferred

· Medicare week Sun–Sat

· Points, map, mileage

· Front-loading is manual

· RFP: no orders, auth or windows ingested or enforced

· LUPA: roadmap (call)

· Read from HCHB status

· No write-back

CareStitch plans the week around HCHB, not with it. Orders, auth and compliance windows stay with the scheduler and the EMR.
