

Vendor Scorecard

How we score each returned questionnaire. The rows are the questionnaire's own questions, in the order they appear on it.

WHAT WE SCORE		
A1	Home Care Home Base integration	20
Section B	Capacity	12
Section B	Scheduling	12
Section B	Engagement	12
Section C	Sophistication	20
D1–D3	Clinician fit	12
E1–E4	Partnership	12
Total		100

HOW WE MARK IT

Home Care Home Base A1	Scope Section B · three marks per arena	Sophistication Section C
20 Live, established customer base	4 Most of it	4 Runs it — decides across the whole picture
16 Live, small customer base	3 More than half	3 Recommends it — proposes; a person confirms
12 Live through a partner	2 About half	2 Checks it — applies rules, flags problems
6 In development, with a date	1 A corner of it	1 Shows it — surfaces the information only
2 On the roadmap, no date	0 Nothing here	0 Not addressed
0 None, and no path		
Clinician fit D1–D3	Partnership E1–E4	
4 Strong fit	4 Open to equity or a stake, and set up to build it with us	
3 Good fit	3 Ready to build to our needs; ownership not addressed	
2 Workable	2 Will take our input; they own the roadmap	
1 Poor fit	1 A standard customer relationship	
0 Not answered	0 Not answered	

FLAGS, BANDS

A2	Customers, scale and references	80–100	Advance
A3	Measured impact	65–79	Consider
C6	What happens when their product is down	50–64	Hold
		Under 50	Decline

These three raise a flag rather than moving the score. A vendor can score well and still carry one. We resolve it before advancing rather than trading it against points.

Clinician fit is deliberately undescribed. It is our own read of what our clinicians will accept.

A vendor whose Home Care Home Base integration is not yet live shows as Conditional whatever the total.

On scope the mark is the points. Three marks of 0–4 give each arena 12, so all three carry the same weight.
