

All 22 variables

How much work this branch can deliver — people, hours, disciplines and territory, netted against what is already booked.

ROSTER	
SH-01	Clinician headcount
SH-02	Discipline
SH-03	Role — assessing vs. assistant
SH-04	FTE / employment type
C-01	Headcount by discipline & employment type
AVAILABILITY	
SH-05	Approved time off / availability
GEOGRAPHY	
SH-06	Territory / service area
C-02	Branch coverage territory — county
C-03	Clinician territory assignment — zip
C-04	Census-tract granularity
CURRENCY & TARGETS	
SH-07	Productivity points per visit type
SH-08	Productivity target & ceiling

LOAD	
C-05	Committed load / points scheduled
C-12	On-call / weekend rotation load
OPEN ROOM	
C-06	Remaining capacity by day
C-07	Week open capacity
C-08	Assessing capacity by discipline
BUFFER	
C-09	Per-diem / flex capacity
SKILL & RAMP	
C-10	Specialty competency supply
C-11	Orientation / ramp status
DEMAND EVENTS & CONTEXT	
SH-09	Referral inflow / discharge outflow
C-13	Referral volume

All 47 variables

Assigning each ordered visit to a clinician, on a day, in a workable route.

PATIENT DEMAND

S -01 Plan-of-care orders / ordered frequency

S -02 Visit type

COMPLIANCE

S -03 Ordered-frequency compliance window

S -35 SOC timing window

S -36 Recert / face-to-face window

READINESS

– Insurance authorization

– Add-on orders

S -43 Consent / POA signature status

S -44 POA availability to sign at the visit

MATCHING

S -15 Discipline / role match

S -16 Specialty competency match

S -33 Acuity to discipline / skill

CONSTRAINT

S -21 Clinician restrictions

ROUTING

S -14 Home base — start / end location

S -17 Proximity to existing route

S -18 Optimised-route mileage

S -19 Intra-day sequencing

S -20 Appointment window — time of day

– Clinician safety — market alerts

CLINICIAN PATTERN

S -04 Preferred working days

S -05 Preferred start time

S -06 Start-time flexibility

S -07 Lunch / documentation pattern

S -08 Mid-day documentation block

S -09 Split-shift / mid-day break

S -10 Preferred end time / hard stop

S -11 Max consecutive visits / daily volume

S -12 Elasticity / willingness to flex

S -13 Overtime / extra-visit willingness

PATIENT AVAILABILITY & PREFERENCE

S -23 Gender preference

S -24 Language / cultural match

S -25 Time-of-day refusal

S -26 Preferred visit window

S -27 Day-of-week constraint

CAREGIVER

S -28 Caregiver-present requirement

S -29 Cognitive / dementia constraint

S -30 Caregiver schedule / availability

CLINICAL TIMING

S -31 Diagnosis-driven timing

S -32 Competing medical appointments

S -34 Infection-control sequencing

CONTINUITY & DEPENDENCY

S -22 Continuity of care

S -37 Supervisory visit dependency

EXCEPTION

S -38 Missed / unworked visit rescheduling

S -39 Missed-visit documentation

DISTRIBUTION

S -40 Front-loading

S -41 Pace vs. schedule

S -42 Day-by-day balancing

All 12 variables

The communication and confirmation work that turns a schedule into delivered visits.

CONFIRMATION & REMINDERS

- C0-01 Day-before / same-day visit confirmation
- C0-02 Automated appointment reminders
- C0-03 En-route / on-my-way notification
- C0-04 New-patient welcome call
- C0-05 Communication channel & preference management

COVERAGE & RESCHEDULE

- C0-06 Availability confirmation before booking
- C0-07 Reschedule coordination
- C0-08 Failed-visit / no-show follow-up & rebooking
- C0-09 Call-out coverage coordination

CARE COORDINATION

- C0-10 Multi-discipline visit coordination
- C0-11 Care-team / office coordination updates

COORDINATION COST

- C0-12 Coordination time load
