

Plan of Care → Assignment

Read beside Flow-DCS-Scheduler — same blocks, same positions. A dashed, struck-through block is a step that no longer exists

OTHER TRIGGERS

Recertification
OASIS recert visit, or non-OASIS recert eval

Physician order adds a discipline eval, or changes the visits ordered

no OASIS · adds, reduces or redistributes visits without changing the episode total

PASS 2 · DISCIPLINE PLAN OF CARE – the repeating pattern

1

× N disciplines

Clinician submits discipline plan of care

2

× N disciplines

DCS reviews & approves

Approved?

Yes

4

Visits generate in HCHB

Auth on file?

Yes

6

ASSIST

Scheduler assigns to care team

7

Visits on clinician calendar

QA backlog visits compress

Returned to clinician for correction — visits are held

Pending auth
~~not on calendar, not counted~~
NO LONGER A STEP

EPISODE VISIT BUDGET – set at plan-of-care approval, steered by DCS

LUPA floor · too few visits

Utilisation ceiling · visits beyond need

Fixed 30-day PDGM payment: below the floor the period pays per visit; above the ceiling extra visits earn nothing and consume capacity.

TRIGGER

Missed visit

MISSED VISIT – the compliance chain

1

Clinician documents missed visit

2

MD notified inside 48 hours

MD notified within 48h?

Yes

4

Documented in HCHB

No

DCS workflow 48h breach
